NYSA CORE WhatsApp Stage B Decision Addendum

NYSA CRM 20261101 WA 001 Addendum 1 v1.1 | Issued 1 November 2026 | Stage B working baseline

Decision. Stage A is closed with WHATSAPP_SANDBOX_CALLBACK_APPROVED=false and WHATSAPP_SANDBOX_ENABLED=false. Build Stage B in CRM Test: import and deduplication, segments, template sync, Agent draft with Manager or Director approval, and inbound enquiries from CTWA ads, the website button and portals that create or match a Lead, preserve source attribution and route to an Agent. Review deployments will be made every 2-3 days. Provider sending remains disabled; production, REM and +971 56 819 8022 remain unchanged.

Decisions D01 to D08

ID	Topic	Approved position or open detail
D01	Independent review	Two-person review where available; otherwise Director self-approval with full audit.
D02	Capacity	Import up to 5,000 rows; dispatch must never exceed the current Meta tier.
D03	Hours frequency spend	09:00-20:00 recipient local time, Dubai fallback; one marketing message per person per 7 days; AED cap remains open.
D04	Follow-ups	Two unattended follow-ups at 24 and 72 hours, only after consent and activation approval.
D05	AI	Handover after 10 AI replies; languages and AI provider/data terms remain open for Stage C.
D06	Operations	15-minute office-hours handover; operating owner, team and escalation Manager must be named.
D07	Retention	Raw imports 30 days; conversations and audit 12 months; suppression retained under control.
D08	Appointments freshness	No calendar in v1; 5-minute template freshness; catalogue and pricing owners must be named.

Stage B dated plan

Date	Milestone	Acceptance outcome
2-6 Nov	Foundation	Schema, validation, duplicate decisions and draft-only controls.
9-13 Nov	Import and segments	Synthetic import, exclusions, saved audiences and audit evidence.
16-20 Nov	Templates, approval and intake	Template controls plus CTWA, website-button and portal Lead routing with source attribution.
23-27 Nov	Canary subject to verification	Only after Meta verifies the Nysa Realty Test virtual number and opt-in and sending limits are approved.

Inputs required from NYSA

Due	Decision or asset	What NYSA provides
Pending	Meta-provided virtual number	Under Nysa Realty Test; pending Meta verification. Test customer: 056 106 6469.
By 10 Nov	Initial templates	NYSA names, languages, use cases and sample wording for Meta approval.
By 13 Nov	Scope and consent	Inbound channels in Stage B and accepted opt-in sources/evidence.
By 13 Nov	Limits	AED cap, campaign size at live Meta tier, sending hours and frequency.
By 20 Nov	Stage C choices	Languages and AI provider/data-processing terms; not needed for the draft-only foundation.

Review cadence. CRM Test review deployments every 2-3 days; each deployment remains subject to exact-candidate approval and release controls.
